DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. Claim 1, recites among other things, a discharging circuit failure judging section for judging a failure occurring in said discharging circuit based on a difference or a ratio in a comparison between a terminal voltage value detected when said discharge switch is turned on and a terminal voltage value detected when said discharge switch is turned off, which are time sequentially detected.

The art of record does not teach, disclose or suggest the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
